A Reliable Partner

Headquartered in Poland, Dressta is today a global manufacturer of crawler dozers and pipelayers and a member of the LiuGong family.

At Dressta, our passion for heavy machinery is over 70 years old. This rich heritage and strong pedigree have allowed us to build know-how and manufacturing excellence through strategic partnerships along the way.

We are committed to delivering high quality, reliable and powerful machines coupled with full technical service & parts support whilst tailoring machines to individual customer needs, helping them achieve more in the jobs they do.

GLOBAL REACH & DISTRIBUTION

Dressta is providing its customers with machines that they need to get any job done coupled with streamlined, efficient and responsive technical service organization with 7 commercial and aftermarket support hubs around the globe.

Close to our dealers & customers we serve

- 7 global centers & parts distribution centers
- 74 dealers in 60 countries
Dressta is redefining crawler dozer & pipelayer productivity and durability with its customer focused approach to design and manufacturing.

**ENGINEEREED FOR YOUR BUSINESS**
What makes us truly unique? With a dedicated team of application engineers, Dressta has the unique ability to customize designs, modify standard equipment to better perform in specific application tasks thus helping customers to improve productivity and bottom line results.

Every day, around the world, no matter the job or conditions clients rely on perfectly engineered Dressta machines.

**DRESSTA MACHINES PROVIDE EXCELLENT PERFORMANCE IN A VARIETY OF APPLICATIONS:**
A global manufacturer of full line crawler dozers ranging from 78 to 536 hp and pipelayers with maximum lifting capacity of 100 tons, Dressta can configure your machine to provide excellent performance in a variety of applications.

**DRESSTA IN FIGURES**
- **7 Global Offices**
- **900+ Employees**
- **140+ R & D Engineers**
- **2 Factories**
- **5 R & D Facilities**
- **74 Dealers**
- **7 Regional Parts Depots**
- **Over 70 Year Experience**
When your business relies on equipment that is durable, productive and backed up by a global network – you can rely on Dressta. Over its 70+ year history, Dressta has developed a reputation for productive equipment tailored to the needs of its hardworking customers.

**LIFTING CAPACITY**
100 tons (220,460 lb)
Power you can depend on

Dressta’s pipelayers are powered by a range of turbocharged Cummins engines which feature a high-pressure common-rail fuel system to ensure efficient performance while supplying the power you need for maximum productivity at the job site. Thanks to the proven common-rail fuel system, this technology delivers a precise quantity of fuel at high pressure and increases fuel economy and performance, decreasing exhaust and noise emissions with consistent performance at every rpm.

**SB-30 M EXTRA**

**Engine:** Cummins QSB 6.7  
**Emission Standards:** EPA Tier 3 / EU Stage IIIA

Cummins QSB 6.7 features in-cylinder technology and proven electronic controls to handle the toughest job requirements. It offers improved cold-start capability and major enhancements that make Dressta products work harder, smarter, quieter and longer.

**SB-60 M EXTRA**

**Engine:** Cummins QSM 11  
**Emission Standards:** EPA Tier 3 / EU Stage IIIA

Cummins proven performance, dependability and durability is maintained while operating cleanly and efficiently with the QSM 11. By using in-cylinder technology, this engine meets EPA Tier 3 and EU Stage IIIA emissions standards. Advanced electronics provide enhanced engine performance for Dressta machines with higher torque and better throttle response at every rpm as well as increased fuel economy, precision diagnostics and engine protection. The QSM also features improved cold starting and up to 50% quieter operation for better operator comfort.

**SB-85 M EXTRA / SB-85 R EXTRA**

**Engine:** Cummins QSX 15  
**Emission Standards:** EPA Tier 3 - Tier 4 Final / EU Stage IIIA - IV

The Tier 3 and Stage IIIA Cummins features in-cylinder technology and proven electronic controls to handle the toughest job requirements.

Developed to meet U.S. Environmental Protection Agency (EPA) and EU emissions regulations, the Cummins QSX 15 engine features an advanced technology solution for total integration of the engine and the exhaust after-treatment system. Fuel economy is optimized above 5 percent compared to Tier 4 Interim engines, while achieving near-zero emissions at the same time.

Thanks to the incorporated Cooled Exhaust Gas Recirculation (EGR) system, this next-generation engine minimizes Diesel Exhaust Fluid (DEF) consumption levels as well.

The Tier 3 and Stage IIIA Cummins QSB 6.7 features in-cylinder technology and proven electronic controls to handle the toughest job requirements.
Safety Built in

Dressta’s commitment to you includes an equal commitment to your safety. Our pipelayers are equipped with all the necessary safety features to give you peace of mind and help you focus on the job at hand.

Our pipelayers are designed to protect your most important asset. Your operator.

All Dressta pipelayers are equipped with electronic safe load indicator along with other features that give the operator peace of mind:

- Boom kick-out
- Hook Block Limit Switch
- Emergency Hook Lowering System (Free Fall)
- Angle Indicator of Lifting Capacity

All necessary load handling information is displayed on 7” LCD color monitor.

Emergency hook lowering system is standard to keep you safe in all conditions.
Comfort zone

When you’re on the job site from dawn to dark, you want a cab that is comfortable all day long.

Dressta operators will enjoy exceptional in-cab comfort from the performance of the air conditioning system to the location of the controls for optimal operator comfort.

The FOPS and 2-post ROPS certified cab provides more space and is equipped with:

• Large tinted side and rear sliding windows for cross ventilation and an enhanced view of the jobsite.
• Air recirculation system.
• Air conditioner / heater / pressurizer.
• Noise reduction trim.
• Deluxe air suspension seat including 6-way adjustment and arm rests.

NOISE AND VIBRATION MANAGEMENT

Isolated cab mounts reduce vibration for enhanced comfort and noise reduction, while the low drive undercarriage system ensures minimal vibration and noise from the final drives.

AIR CONDITIONING

The air conditioning system creates the right environment in any weather, all year round. The heater, the A/C evaporator unit and fan are mounted under the operator’s seat for consistent cab temperature throughout the day, while fresh air filters are mounted below the cab rear windows and the condenser unit is mounted on the engine radiator guard.

EASY MONITORING

A high resolution 7” LCD display screen provides real-time system values for both driving and hoisting systems.

• Multiple language options
• Large anti-glare full color monitor
• Generous memory storage
• Dual (metric/imperial) units

High resolution 7 inch LCD display screen
The cab provides a clear view to the boom working areas, as well as the entire job site.

**CAB DESIGN AND LAYOUT**
The comfortable suspension seat is adjustable to the operator’s weight and sitting position and is equipped with arm rests and seat belt.

**RESPONSIVE AND PREDICTABLE CONTROL**
Ergonomically designed controls are conveniently located: LHS Controls for Driving System and RHS controls for Boom / Hook / Counterweight controls for operator comfort and ease of operation.

**SKYLIGHT WINDOW**
A large skylight window provides a clear view from the seat to the boom.
Maximum return on your investment

CAB
Six-sided, heavy duty with ROPS / FOPS for greater operator safety. The best in class all-around visibility and excellent view of the boom end in upper position through roof window.

DEPENDABLE POWER
Unmatched performance driven by the fuelwise Cummins engines that enhance torque output with more power at lower engine speeds.

COUNTERWEIGHTS
Unique horizontal design provides the lowest center of gravity allowing unrivalled lifting capacity and excellent stability. Front and rear counterweights are extended hydraulically by two separate controls.

EASE OF TRANSPORTATION
Detachable boom, winch and counterweights along with quickly removable pins make Dressta pipelayers easy to transport between jobsites.

VERSATILITY
Get the most out of your machine through towing applications by utilizing the unrivalled drawbarpull.

FAST CONVERSION TO CONVEYOR BELT SHIFTER
The boom is installed with a special head for shifting conveyors belts.
RANGE OF BOOMS
Variety of boom options that provide the highest operating range in the industry. The durable booms feature high tensile strength steel for the most heavy duty and safe operation. The structure of the boom provides maximum visibility of the job site.

BOOM KICK-OUT SAFETY SWITCH
Protects the operator, the boom and the cab structure against the most unwanted.

SAFE LOAD INDICATOR
Electronically controlled hook pin and boom angle transducer continuously informs operator about maximum momentary lifting capacity. System also allows gravitational hook lowering for emergency situations.

WINCHES
The heavy-duty winch design works in harmony with the hydraulic system for maximum productivity. Boom and hook are driven by independent hydraulic winches controlled by two separate controls for better precision. A modular, plug-and-play design allows for fast replacement and easy field service. Interchangeable parts between hook and boom winch assemblies help reduce costs and maximize uptime.

NO SLEW LOCK NEEDED
Thanks to being built on dozer platform, no risk of 360 degree slew of the superstructure like on excavator based pipelayers.

INTERCHANGEABILITY
75% commonality between Dressta pipelayers and dozers ensures high availability of spare parts and low service & maintenance costs.

ARCTIC KIT
Refined for supreme performance in arctic conditions, Dressta pipelayers can be fitted with a special kit for operation in temperatures as low as -40°C.

HEAVY DUTY UNDERCARRIAGE
Heavy duty 3-point rigid undercarriage is perfectly suited to challenging applications like side slopes or working in rocky, muddy or dry terrain.
Dressta knows that its equipment is put to the test each and every day, and its machines are engineered to stand up to the challenges and demands of the toughest jobs.

**WARRANTY**
When you purchase a Dressta pipelayer, your investment is backed by one of the most comprehensive warranties in the industry. In addition to the standard 12 month warranty, Dressta offers extended warranty protection programs for additional peace of mind.

**EASY PARTS SUPPLY**
Genuine Dressta parts are engineered to fit right the first time and to provide the highest levels of performance and reliability while meeting strict quality controls. The global parts network, with seven regional distribution centers and advanced logistics systems, means you can be assured of rapid parts supply of whatever you need, wherever you are.

**GET THE MOST OUT OF YOUR EQUIPMENT**
Dressta’s stringent quality assurance ensures all products meet the exact needs of customers. Technical support teams offer fast access to factory expertise and information systems while ongoing aftersales support is available via dealerships with factory trained engineers who are available as and when you require.
Our products are supplied worldwide through a well-established network of independent distributors who are as passionate about the industry as you are.

**LIFTING CHARTS**

**STD VERSION**
STANDARD EQUIPMENT SB-30 SB-60 SB-85

ENGINE
SB-30M Extra: Cummins QS6.7, Tier 3/ EU Stage IIIA, emission certified, turbocharged, direct start, direct injection, 188 HP (140 kW)
SB-60M Extra: Cummins QSM11, Tier 3/EU Stage IIIA, emission certified, turbocharged, direct start, direct injection, 310 HP (231 kW)
SB-85M Extra: Cummins QSK19, Tier 3/EU Stage IIIA, emission certified, turbocharged, direct start, direct injection, 370 HP (276 kW)
SB-85R Extra: Cummins QSK19, Tier 4/EU Stage IV, emission certified, turbocharged, high pressure injection (HPI), 370 HP (276 kW)

Antifreeze, -37°C (-3°F)
Exhaust pipe extension
Filters, drive train system, hydraulic system, engine fuel system
Strainers, fuel and hydraulic tanks
Water separator, fuel system

SB-30M Extra / SB-60M Extra / 85M Extra:
Air cleaner, dry type w/exhaust aspirated primary and safety elements and service indicator
Cooling module; includes radiator, transmission oil cooler, hydraulic oil cooler, charge air cooler, isolation mounted
Muffler, under engine hood, insulated
SB-30M Extra: Fan, blower
SB-60M Extra / 85M Extra: Fan, hydraulically driven
Coolant filter conditioner
SB-85M Extra / 85R Extra: Filters, oil, full flow with replaceable elements
SB-85R Extra: Air cleaner, Cummins Filtration Direct Flow, dry type, precleaner and electronic service indicator
Cooling module, includes radiator, transmission oil cooler, fuel cooler, hydraulic oil / fan drive oil cooler, charge air cooler, isolation mounted
Fan, hydraulically driven, suction type, variable speed
SB-30M Extra / 60M Extra: Filter, oil, spin-on type

DRIVETRAIN
Torque converter, single stage
Transmission, power shift, 3 speeds forward, 3 reverse combined with 2 speed steering provides 6 speeds forward, 6 reverse
Steering, planetary type, 2 speed, left hand single lever control (joystick)
Brakes, wet, multiple disc, closed type, spring applied hydraulically released
Decelerator - right foot pedal, and brake - center foot pedal
SB-60M Extra: Diagnostic center for power train pressures

OPERATOR’S ENVIRONMENT:
Cab, 6-sided, w/sound suppression, air recirculation system, lights: 2 front and 1 side (L/H), wipers/washers, dome light, inside mirror, roof window and emergency hatch (approved according to FOPS - SAE J231)
Seat, deluxe, air suspension type, fabric cover, adjustable with arm rest
Seal belt (SAE J386) - 3’ wide, retractable
Sun visor for front cab window
Tools compartment

BOOM
Boom kickout, uppermost position
Brake, hook lowering, auxiliary
Emergency hook lowering system
Load capacity indicator, mechanical, on boom frame
SB-30M Extra: Lifting capacity - 33 100 kg (72,972 lb) @ load overhang of 1 220 mm (4”) and cwt max extended (per SAE J743b)
Boom, welded type, box-section structure, ‘A’ shape frame, length 6 500 mm (21’4”)
SB-60M Extra: Lifting capacity - 72 000 kg (158,731 lb) with counterweights extended (per SAE J743b)
Boom, welded type, box-section structure, ‘A’ shape frame, length 7 315 mm (24’)
SB-85M Extra: Lifting capacity - 100 000 kg (220,460 lb) with counterweights extended (per SAE J743b)
Boom, welded type, box-section structure, ‘A’ shape frame, length 7 315 mm (24’)
SB-85R Extra: Lifting capacity - 100 000 kg (220,460 lb) with counterweights extended (per SAE J743b)

INSTRUMENTATION
Gauges: fuel level, engine coolant temperature, engine oil pressure, torque converter oil temp., voltmeter, hourmeter, brake lock, emergency hook lowering, joystick control display
Warning lights: air cleaner filter, transmission oil filter, hydraulic oil filter, transmission/ clutch oil low pressure, counterweights extended, hook top limit position, boom top limit position
Audible & visual warning system: low engine coolant level, low engine oil pressure, coolant high temperature, hydraulic oil high temperature

ELECTRICAL
Alarm, back-up
Horn, electric
Light, boom
Lights w/guards, 2 front, 2 rear, tractor mounted
Starting, 24 V
Starting aid - air grid heater - (not for SB-30M Extra)
Receptacle, starting/charging
SB-30M Extra: Alternator 70 A
Dual batteries 12 V, 815 CCA, maintenance free
SB-60M Extra: Alternator 50 A
Batteries, (4) 12 V, 1920 CCA, maintenance free, cold start
SB-85M Extra: Alternator 105 A
Batteries, (4) 12 V, 1920 CCA, maintenance free, cold start
SB-85R Extra: Alternator 105 A
Batteries, (4) 12 V, 1920 CCA, maintenance free, cold start

GUARDS
Guards; crankcase - hinged with front pull hook, fan, transmission
Engine hood, sloped, solid type
Engine side doors, hinged, perforated type
Final drive seal guard
Radiator guard door, two-piece, louvred, hinged
SB-30M Extra: Track roller guard
Engine hood, sloped, perforated type

UNDERCARRIAGE
Track adjusters, hydraulic
Track chain guides, integral
SB-30M Extra: Track chain, sealed and lubricated (LTS) with split master link, 43 links
Track frames, 8 roller, 2 160 mm (65”) gauge, non-oscillating type, lifespan lubricated rollers & idlers
Track shoes, 610 mm (24”) severe service
SB-60M Extra: Track chain, sealed and lubricated (LTS) with split master link, 41 links
Track frames, 8 roller, 2 340 mm (92”) gauge, non-oscillating type, lifespan lubricated rollers and idlers
Track shoes, 762 mm (30”)
SB-85M Extra: Track chain, sealed and lubricated (LTS) with split master link, 46 links
Track frames, 8 roller, 2 700 mm (106”) gauge, non-oscillating type, lifespan lubricated rollers and idlers
Track shoes, 915 mm (36”)
SB-85R Extra: Track chain, sealed and lubricated (LTS) with split master link, 46 links
Track frames, 8 roller, 2 700 mm (106”) gauge, non-oscillating type, lifespan lubricated rollers and idlers
Track shoes, 915 mm (36”)

OTHER STANDARD EQUIPMENT:
Bumper, front
Drawbar, fixed
Ecological drains for engine oil, radiator coolant and hydraulic oil
Manuals, parts and operator’s
Rear access platform
Winch transmission (two separate winches for hook and boom with hydrostatic drive system and planetary transmission)
SB-30M Extra: Counterweights, adjustable, hydraulically controlled, 2-block and 2-counterweight frames; total weight extendable - 5 360 kg (11,817 lb)
SB-60M Extra: Counterweights, adjustable, hydraulically controlled, 4-block and 2-counterweight frames (total weight extendable - 11 640 kg (25,662 lb)
SB-85M Extra: Counterweights, adjustable, hydraulically controlled 4-block and 2-counterweight frames (total weight extendable - 12 350 kg (27,227 lb)
SB-85R Extra: Counterweights, adjustable, hydraulically controlled 4-block and 2-counterweight frames (total weight extendable - 12 350 kg (27,227 lb)
OPTIONAL EQUIPMENT SB-30  SB-60  SB-85

WORKING ATTACHMENTS
Hook pulley block limit switch, uppermost position

SB-30M Extra: Boom, welded type, box section structure, ‘A’ shape frame length 6 500 mm (21’4”) with electronic load limit indicator
Boom, welded type, box section structure, ‘A’ shape frame length 8 500 mm (27’9”) with or without electronic load limit indicator

SB-60M Extra: Boom, welded type, box-section structure length - 7 315 mm (24’) with electronic load limit indicator
Boom, welded type, box-section structure length - 9 000 mm (29’ 6”) with or without electronic load limit indicator

SB-85M Extra: Boom, welded type, box-section structure length - 7 315 mm (24’) with electronic load limit indicator
Boom, welded type, box-section structure length - 9 000 mm (29’ 6”) with or without electronic load limit indicator

SB-85R Extra: Boom, welded type, box-section structure length - 7 315 mm (24’) with electronic load limit indicator
Boom, welded type, box-section structure length - 9 000 mm (29’ 6”) with or without electronic load limit indicator

GUARDS
SB-30M Extra: Transmission and engine crankcase guards, severe service
Crankcase guard with front pull hook
Solid hood and perforated side doors

SB-60M Extra: Sprocket dirt deflector
Track roller guards, full length

SB-85M Extra: Sprocket, dirt/rock deflector
Track roller guard
Engine hood, perforated

SB-85R Extra: Sprocket, dirt/rock deflector
Track roller guard
Engine hood, perforated

ADDITIONAL OPTIONS
Beacon light, rotating
Inspection lamp, 24 V, portable, with 6 m (20’) cable
Light, winch
Starting/charging receptacle plug assembly with cable (required to jump start or charge batteries)
Vandalism protection
Maintenance tool kit, 17 items in a metal box
1000 h maintenance package (filters)
1500 h maintenance package (filters)
2000 h maintenance package (filters)

SB-30M Extra: Batteries, cold start, (2) 12 V, 960 CCA

SB-60M Extra: Rubber protection stripes, bolted. For use with standard 7 315 mm or for use with 9 000 mm boom

TRACK SHOES
SB-30M Extra: 711 mm (28”) shoes, severe service
SB-60M Extra: 860 mm (34”) shoes

OPERATOR’S ENVIRONMENT
Air conditioner/heater/pressurizer/defroster, underseat mounted, behind roof mounted
A/C condenser
Heater/pressurizer/defroster
ROPS, for use with standard Cab
For use with cab:
• AM/FM CD radio
• Lights for cab, 2 rear
• Mirrors, 2 pcs, exterior, cab mounted
• Sun visors (2), additional, for side door window

EXPORT PACKING
Export packing, drive-on/drive-off, machine on the trailer
Export packing, drive-on/drive-off, machine on the railway wagon
Specifications may change from time to time and this brochure may not reflect the latest specifications. Photographs in this brochure may not reflect market configuration. Please consult your dealer to confirm specifications and configurations.
